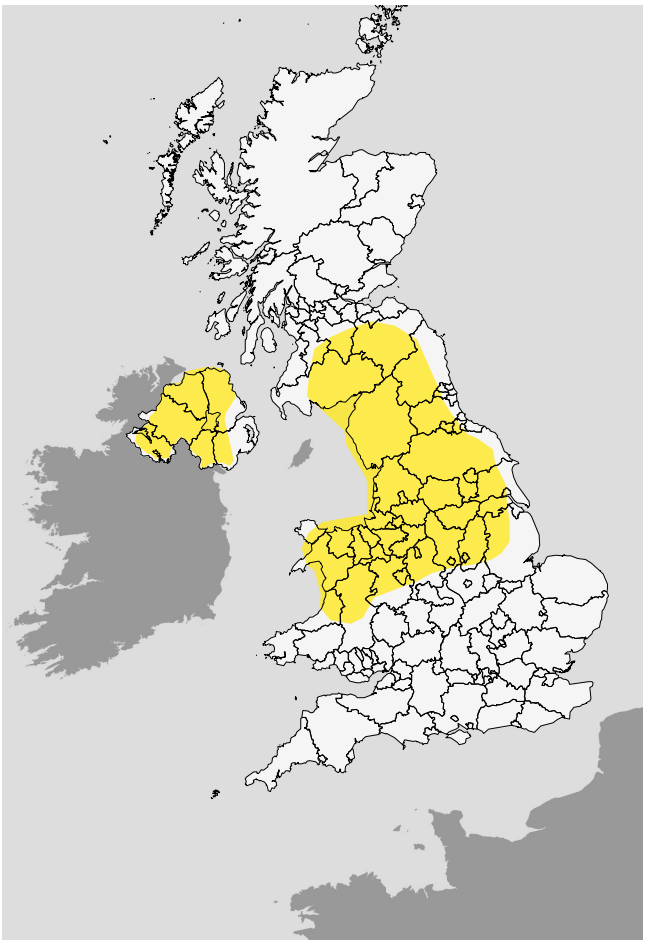
Yellow warning
Snow & Ice

Between
00:00 Tue 2 Feb 2021 and
23:59 Tue 2 Feb 2021



Snow, with a risk of widespread ice, is likely to push slowly northeast during Tuesday, bringing difficult travel conditions.

What to expect

- Possible travel delays on roads stranding some vehicles and passengers, with bus and train services potentially delayed or cancelled. Some road closures and longer journey times are possible
- Possible delays or cancellations air travel
- Some rural communities could become cut off
- Power cuts may occur and other services, such as mobile phone coverage, may be affected
- A chance of injuries from slips and falls on icy surfaces
- Untreated pavements and cycle paths might be impassable

Further details

A band of rain, locally heavy in places, is likely to push slowly northeast across Wales and England early Tuesday. As this rain comes into contact with cold air in place, it is likely to readily turn to snow away from eastern coastal districts. 1-4 cm of snow is quite likely away from eastern coasts, with 5-10 cm possible above about 150 metres and up to 20 cm across higher parts of the northern Pennines and Southern Uplands.

As well as snow, a period of freezing rain is possible for parts of east Wales and the north Midlands. Should this occur widespread icy stretches would form.

Very low likelihood of medium impacts

Issued at 10:36 Fri 29 Jan, 2021 Updated at 10:45 Sat 30 Jan, 2021

Yellow warning
Snow & Ice

Between
00:00 Tue 2 Feb 2021 and
23:59 Tue 2 Feb 2021

Further Details (continued)

Snow should turn back to rain from the south, lasting longest across parts of northern England, southern Scotland and Northern Ireland.

Reason for update

Update the warning area to include Northern Ireland, southern Scotland and to remove parts of the Midlands and Wales. Warning time updated to be for Tuesday only.
